

ECO OVEN CLEAN

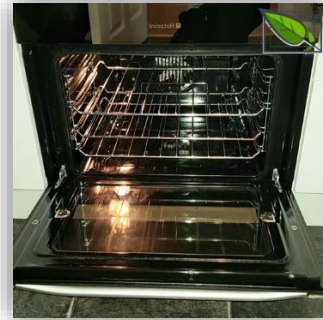

Biodegradable
Non Caustic
No Harmful Odours or Fumes
www.eco-ovenclean.co.uk

Dear Landlords and Letting Agents

I would like to introduce Eco- Oven Clean as a service that may help your business by returning Ovens, Hobs and Extractors to a high standard of cleanliness and a polished appearance at the end of a tenancy and in preparation for re-letting.

Example showing an oven prior to cleaning

The same oven after cleaning

Eco Oven Clean would be happy to provide the following service:

- 1/ Competitive rates starting at £45 for a standard 60cm oven.
- 2/ A report on the condition of the oven including the oven light, seal, fan, damage to the interior and exterior and the condition of the hobs and extractors – see attached Oven Report form.
- 3/ Replacement oven light bulbs, extractor filters and seals at competitive prices.
- 4/ Images of the before and after condition of the oven to support your letting business.
- 5/ Peace of mind that we do not use caustic chemicals that burn, create fumes and can damage the element of the oven.
- 6/ Time saving service that includes collecting keys from agents or landlords, accessing the property to carry out the clean and returning the keys on completion.
- 7/ Full public liability insurance up to £1000,000, see attached certificate.
- 8/ Flexible appointments that allow you to get a property ready for letting at short notice.

Thank you for your time and I hope that our oven cleaning service may be of help to you and your business.

Regards

Owner Operator
